

# Norcol Bonding Pastes

Your guide to choosing the right Norcol Bonding Paste for GRP/Fibreglass production applications.

Choosing the correct Bonding Paste for your application is important, there are many important factors to consider from the type of bond strength you want to achieve through to how flexible the finished bond line needs to be.

To make choosing the correct BP easier we have come up with the following selector guide.

	PRE ACCELERATED	COLOUR CHANGE	HIGH STRENGTH	FLEXIBLE	SEMI FLEXIBLE	FIBRE FILLED	LOW SHRINKAGE	ZERO SHRINKAGE	LLOYDS APPROVED	LIGHT WEIGHT	COLOURLESS	LOW VISCOSITY	VINYL ESTER	SAND-ABLE	RAPID CURE	LARGE GAP	BONDS METAL
